THE PUREST AND BEST
MEDICINE EVER MADE.
THEY ARE COMPOUNDED FROM
Hops, Buchu, Mandrake and Dandelion.

"The Oldest, Best, most Renowned, and Valuable Medicines in the World, and in addition contain all the best and most effective curative properties of all other bitters, being the greatest Liver Regulator, BLOOD PURIFIER and life and health restoring agent on earth."

They Give New Life and Vigor to the Aged and Infirm.

"To Clergymen, Lawyers, Literary Men, Ladies, and all those whose sedentary employments cause irregularities of the Blood, Stomach, Bowels, or Kidneys, or who require an Appetizer, Tonic, and mild Stimulant, these Bitters are invaluable, being highly curative, tonic, and stimulating, without being intoxicating."

"No matter what your feelings or symptoms are, or what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use the Bitters at once. It may save your life. Hundreds have been saved by so doing at a trifling cost."

Ask your Druggist or Physician.

"Do not suffer yourself or let your friends suffer, but use and urge them to use Hop Bitters."

"Remember, Hop Bitters is no vile, drugged drunken nostrum, but the purest and best Medicine ever made, and no person or family should be without it."

GILLARD'S

SANDRINGHAM
TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

LUXOR
KEROSENE OIL

This celebrated brand of Kerosene, manufactured by the Chesebrough Manufacturing Company (the manufacturers of Vaseline) is without doubt the best in this Market. It is perfectly pure, gives a brilliant light, and is absolutely free from that disagreeable odour most kerosene has.
It will last ONE THIRD LONGER than any Kerosene Oil in this market, and the fire test being 150°, it cannot explode the lamps, and endanger, life as the yellow and cheap kerosene is likely to do at any moment! Send for free samples and test it.

No thoughtful, or careful engineer or owner of good machinery, can afford to remain ignorant or indifferent to the qualities of this celebrated lubricator. Its value can only be known by those who have properly used it. It is true the first cost is higher than common animal or vegetable oil, but it will last ONE THIRD LONGER and preserves machinery while other oils injure and corrode by the acid they contain, so that this oil is CHEAPER than any lubricator known.
Those who are wise will give it a fair trial.

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Valparaiso 13th

Altamirano has accepted portfolio of Interior, but will not assume his post till the coming elections for Congress and Municipalities are over.

Anibal Pinto likely to be named Lord Mayor of Valparaiso.

Transport Chalaca raised and floated.

Fever bad at Trujillo.

At Callao all vessels from the North are placed in quarantine.

A violent Peruvian newspaper has been started in Lima.

Lisbon 11th

Debates in Chambers lively. Viscount January again questioned Government about the Chargès d'Affaires named for the Plate and Chile. Baron Ortega refused to go to the Plate, and Mr de Queiros (an editor) now Consul at Cardiff, was offered the post.

Export of gold to London frightening the merchants.

Rio 13th

Debate on address in reply to speech from throne very stormy. Silveira Martinez 'pitching into' the Government hot and strong. Press backs him up heartily.

A crisis is coming on, and we will either have Dantas (Liberal) as new Premier, or de Souza with his Conservative Government.

Public opinion greatly interested in the debates.

Rosario 13th

Sereno set on and butchered last night by five men who were all captured.

Money market unchanged.

Montevideo 14th

Five Financial Bills presented by Government—

1st—General increase of Customs duties.

2nd—Reduction of 25 per cent from Military Pensions.

3rd—Discount of one per cent on all Treasury payments except for the Debts.

4th—Reduction in general expenditure.

5th—Special additional tax on imports, to meet last year's deficit.

MONTEVIDEO.

Although the banks here suffered nothing by the great Antwerp failure, still there was an uneasy feeling last week, and on Saturday a meeting of barraqueros was held, which was the nearest approach to a meeting of creditors, but I hear to-day that everything has been arranged, and fresh telegrams from Europe state the Antwerp affair will not be by any means so bad a business as at first supposed; there are immense assets, and a fortune of 20 millions of francs is not wiped off the face of any market by the wool losses of a bad season. They have talked so much about this matter here, that I for one began to suspect there were heavy creditors here, but one of the bank managers tells me it is not so, and the exchange offering here on the Antwerp house had to be invariably negotiated in Buenos Aires.

Since Saturday there has been very little doing in the bathing line; the Pocitos is a most shocking place in a gale of wind. Mr Boadle jumped in when the gale nearly blew the train off the track on Saturday afternoon, and some ladies from Buenos Aires rather enjoyed the breakers dashing over their bathing ladder, but Sunday was sharp and cold and the Pocitos at 4 p m reminded one of a printing office after the day's work is over.

Some person spread the rumour that the inauguration of the Exhibition had been again postponed, which caused no small disappointment, as numerous families are preparing to go up to-morrow night, and all the Montevidean ladies are stripping the gardens and quintas of flowers. The rumour has, however, received a semi-official contradiction and the preparations for the feast proceed. In politics there is so little going on that, if I except the fuss made by all the papers about General Roca's last rose of summer telegram, there is nothing to write about. Concerning the position of parties here I am utterly ignorant; once upon a time they had Blancos and Colorados and one could understand their politics, but to-day the Blancos and Colorados are merged into what are termed Nacionalistas, and hence, as far as I can make out, there are no more political parties but Government and Anti-Government parties, the Employed and the Unemployed. At a recent meeting of the Legislature a project of law was introduced ordering the President to wear a Presidential band of office, to be made of Gentili's Oriental silk, with the colours of the country and a gold medal; in the middle; the Bill has not yet passed. It is inexplicable how to this hour the Oriental Presidents were destitute of this insignia, and possibly our Æsthetic correspondent in London can trace to this oversight many of the troubles at the Government House, as, without the Presidential band, it may have been for many a hard job to distinguish some of the Presidents from a policeman. The authorities in the Uruguay have just arrested, under the Extradition Act, an Italian who is five years in the country and has behaved himself so well whilst here that, although in Italy a noted criminal, he passed off as a most respectable industrious Italian. The Italian authorities have proceeded with so much caution and secrecy in the affair that it is believed the arrest is of great importance in Italy.

I hear, on tolerably good authority, that the new Government meditates sweeping changes in the camp authorities, and that crime in the camp will be punished with the same relentless vigour as in the days of Latorre, which is the hope of all the people with whom I have conversed. The camps of the B. Oriental are much neglected; some of the very best estancia lands are offering at the same price as the Sauce Corto lands, and very many parties say they would prefer a league of Sauce Corto land to a league in Mercedes. Mr. George Morgan, who has a fine estancia near Fray Bentos, says that the camps are wearing out in the Banda Oriental, that a league of the very best land will not support more than one-third of the stock on a league of good Buenos Aires land, and that the black earth is being washed away and stones and pebbles cropping up; the camps are not overstocked, yet sales of sheep and cattle 'al corte' are difficult, I hear of a large number of good mestiza sheep offering for 7 rls. and not sold, and as for horned cattle, they are shipping the live stock over to Campana in order to move them off. Meantime, if I am to believe a salted hide broker, some of the saladeros in the Uruguay are brought to a stand-still for the want of novillos.

They have published for the Exhibition a rather useful book on this country, called 'Revista Mercantil', with a retrospect of 1881. As the figures are fresh and official, we commend the little book to the notice of merchants; some of its figures are most instructive and show that, spite of everything, the country and its trade are growing, I cannot fill my chapter up with dry statistics, but to teach the people here and in Buenos Ayres who always wear black spectacles, that things are brightening, I will give following returns of the total import and export trade, taking 1873, the greatest year they ever had here, as the stand point.

1873	total trade	73,377,218
1874	do	37,426,455
1875	do	25,683,728
1876	do	26,527,000
1877	do	28,945,258
1878	do	33,430,133
1879	do	32,595,864
1880	do	37,327,375

I cannot lay my hand on the figures for 1881, and they are not to be found in the pamphlet, but I am aware they exceed those of 1880, which proves pretty clearly that the Banda Oriental is progressing. 'E pur si muove.'

THE EXHIBITION

It looks like a dream, but it is stern reality; the Continental Exhibition of the Argentine Republic is inaugurated to-day. The National Government has declared the day a National feast, in honor of progress and industry. This exhibition may be greeted as the first serious step of enterprise in the Plate. People began feeling their way on a modest scale with the Cordoba Exhibition, Rural Shows of animals at Palermo, and in the Florida Gardens; the Industrial Exhibition at the National College some years ago and the Italian Exhibition paved the way; but the neophyte peered through all of them and in spite of these humble but honorable antecedents there was a general current of professed disbelief and sceptical indifference as regards the upshot of the Continental Exhibition. But all honor to the Club Industrial; they have torn the veil and dispelled the charm that smothered any collective attempt at enterprise of any kind in the Plate; our railways, our loans, our bridges, our public companies have all nearly been raised by Government and with foreign capital. For once Argentines can fee that they stand on their own legs and pitch away leading strings with the short frocks of infancy. Viewed in this light, the Exhibition is a starting point in the annals of Argentine history, a new departure that tends more than ever to sweep off the lethargy and retrograde ideas of the past, as the Republic advances torch in hand on the road to progress.

Those who witnessed the checkered existence of the Club Industrial swept over the disastrous events that rocked the cradle of the Exhibition and sympathized with the enterprise, that, struggling on all sides, finally emerged from the uneven contest with vigor and vitality, can fully appreciate the merit of the men who now smile on the unexpected success of their individual efforts. The idea of an Exhibition was whispered cheek by jowl among the members of the Club Industrial; it emerged from its embryonic state and took shape in the rooms above the Cafe Colon. The idea was launched in troublous times, when the political volcano was grumbling and threatened eruption; it floated in an incredulous atmosphere of gunpowder, and sneers greeted the genial invitation of the club to take shares. Tejedor rose like Banquo's ghost, and his shadow cast a gloom over the flickering idea: his evolution of the year 1880 upset all calculations, but his downfall was the signal of a resurrection of hopes hidden by the black clouds of civil war and distrust. The Municipality would not hear of the occupation of the Plazas Victoria and 25 de Mayo, and the Club selected a spot at the back of beyond—the Plaza Once. But the fashionable artista, fresh from Belgium, the stout barraquero and the worn-out looking consignatario of the Once objected to the removal of the pampa and Arab life of the plaza for the sake of erecting an exhibition; happily providence came to the rescue; no people are so easily convinced as woolmen, and the workmen began their task spade in hand. The works were progressing, everybody talked about the exhibition, when fatality stalked in with a pampero blast that shattered the edifice, the nerves of the Club Industrial and the anxious hopes of a delicately enterprising public, that did not contribute a paper dollar to the great concern.

These stormy antecedents were soon forgotten, as the works were actively pushed ahead and 300 sturdy Italians raised the dejected concern to its present height and enviable architectonic finish. There it stands, a monument to the perseverance and strenuous efforts of a few men who never tagged and met adversity with Horatian virtue. But such a litany of misfortunes, of efforts, of applause and of abuse would lead one to think that the question at issue was one of immense material value; but, on the contrary, never before in the history of man was there such a fuss made of a building that was only to cost three millions currency—say 24,000 £. The material worth of the concern was nothing, but its moral weight, its moral value was immense, representing over ten-fold

its cost. It means credit abroad, enterprise at home and satisfied 'amour propre' to the Club Industrial. The members had to exert all their influence, efforts and money, because they had to battle against an adverse public opinion, against the press and in fact against the public. A visitor might well ask the cause of this public apathy on the part of men who roll in millions and possess land by the league and animals by the thousand. It simply arises from ethnological causes, that are linked to the living in the country. The people are too well off, can do without exhibitions, without machines, without industries, because the country is the estanciero, who cannot help making money as long as the cattle increase and the sheep do not die out. In fact, foreigners have raised the exhibition, because it opens new fields to their activity and to their enterprise. In the Argentine Republic you only need $3.000,000to erect an Exhibition or buy 300 square leagues of land; but you must pay 30,000,000 $m|c for a revolution or an Almirante Brown. Pity 'tis that all Argentines are not members of the Club Industrial: the few members of the Club reap all the honors of the day; they may recline on their laurels and look forward to the epoch, when the present show will only constitute a miniature concern, when compared with the grand Exhibition of some future day.

NATIONAL MONETARY TYPE.

A few days ago the Minister of Finance sent a circular to the governors of all the provinces, (it is to be presumed also to the Governor of Buenos Aires,) asking them to strengthen the hands of the National Executive in the effort to popularize the national coin throughout the country. This is a praiseworthy step on the part of the Government, Their object is to prepare the country for the change that must legally take place, according to articles 7 and 8 of the Money Law, which enact that when the mint shall have coined eight millions of gold and four millions of silver fuertes, every operation within the Republic must be in conformity with the new standard. The first step has been initiated by the Government of the Nation, ordering the National accounts to be henceforward kept in the new fuerte. To the present this measure does not affect the public in any way, only giving a little extra trouble to the employees: The Government has also stated their determination to present their next Budget to Congres calculated on the basis of the new monetary type.

So far so good; but notwithstanding that Mr. Romero says in his circular that the Mint is working day and night, we fear that a considerable time will elapse before the Government will be able to act on the powers given them in articles 7 and 8 of the Law; and we consequently think the immediate action of the provincial governments in the sense advised in the circular would be premature, and would cause much confusion in commercial operations. We think that the provincial administrations had better be left, like the public at large, to prepare gradually for the climax when a National Decree will make it obligatory to open a new set of books, and turn their backs for ever on bolivians, soles, ounces, chirolas, and even on the effigy of the Queen, God bless her.

But a disagreeable reflexion obtrudes itself on our mind. What if some of the provincial governments should decline to obey the law of Congress under the pretext that the provinces are independent states in everything pertaining to their internal economy? The Constitution says that all banks of emission must be authorized by Congress, and yet we find that state and private banks of emission exist all over the country. Will the Province of Buenos Aires return a favourable answer to Mr. Romero's circular? It is to be hoped that this gentleman has assured himself beforehand of the adhesion of his friend Dr. Rocha. But may not the people of the Province insist on sticking to their beloved paper dollar? And if they do, will it be in the power of the National Executive to oblige the Provincial Bank to call in all their emission and replace it with notes of the National type? The National Bank will naturally be amenable, and we expect very soon to see an emission of their notes in the new type, redeemable in gold 'Argentinos.' But with other banks, and amongst them state banks, it will be found very difficult a compliance with the Law, and more particularly those who are enjoying the 'dulce far niente' of 'curso forzoso.' The banks of Cordoba, whose circulation is based on the silver bolivian, and who have always redeemed their notes at par, will of course find the operation easier than the state banks of B. Aires and Santa Fé. How Dr. Iriondo or his successor, Dr. Zaballa will get over the difficulty puzzles us to imagine. The Bank has an emission of a million and a half of Bolivian notes, based on an imaginary bolivian dollar of 21 to an imaginary ounce of 16 dollars. The accounts of the administration are in fuertes of the type of 16 to the ounce of gold, and Government receives the provincial paper at the rate of 21 to this ounce. Now, as the silver bolivian is at a discount of 5 per cent in relation to gold, and the Provincial Bank paper at a discount of 16 to 17 per cent in relation to silver, as we see by the papers, we would ask Mr. Romero by what financial operation is Mr. Iriondo to place his bank in a condition to change its circulation to the National type? Should this be possible, the immediate effect would be an enormous augmentation in amount of taxation. Now Santa Fecinos pay twenty fuertes with twenty six and a quarter bolivian paper dollars. The twenty fuertes are worth thirty one paper dollars in the market. Should the tax have to be paid in twenty National dollars it stands to reason the Santa Fecinos would have to pay 20p. cent more than at present for taxes. Has the Finance Minister any political economy machinery to combat such a mess of difficulties? As far as the two principal provinces of the Republic is concerned, we expect their policy will be one of 'laissez aller.'

EDITOR'S TABLE.

One leg of this 'Table' will be found to-day in our Supplement. By the way! Talking of tables. Yesterday Mr Eastman sold tables that have received almost as much 'elbow polish' as this 'Editor's' one, Dozens attend the sale of Mr Downes's furniture to-day in Calle Suipacha. It is the best that has been offered for a long time, all solid English make in the newest style. Were it sent to England, it would fetch more than it cost, as good furniture always does there, after being in some use and well cared, the extra price being paid for the 'elbow-polishing'. Everything sold splendidly 'Hasta Viernes,' readers. No *Standard* to-morrow.

The great day has come at last! At 3 p m President Roca will enter the Exhibition at the Calle Rivadavia door, accompanied by his Cabinet Ministers, the Diplomatic Corps, and all the other big-wigs. The public will learn with ineffable satisfaction that there will only be *two* speeches on the occasion, one by ex-President Avellaneda, Honorary President of the Exhibition, handing it over to the Government, and the other by President Roca, declaring it open. When the official party have all entered the doors will be closed. The general ruck of the public must enter by the Calle Piedad doors, which will be closed also at 3 o'clock! (This is a most extraordinary proceeding, almost as much so as issuing 3,000 free invitations on a day when the Committee has the best chance of large receipts; 300 free cards would have been quite sufficient, but we'll say no more to-day, not to spoil sport.)

Very flattering comments were made on the weather yesterday, doubtless to keep the Clerk in good humour and make him stick to it for to-day, but he certainly deserved the praise bestowed on him, as it was a delicious day.

The accidental discovery of some splendid dyeing woods in the Resistencia Colony is announced.

The West Coast papers by the Valparaiso have, as usual, a full supply of unreadable news. The latest dates from Panama are to February 9th. More of the Canal men have died and others are going home on sick leave. All the little republics about there are still on their good behaviour; no revolution in any quarter.

The abduction fever is at its height. Between Saturday night and Monday morning six girls in their teens fled from their homes in this city. This means 6 ruined lives. There is a change badly wanted in the education and domestic training of our girls of the period.

We read in our excellent camp colleague the *Oeste* of Mercedes that the people in that town are all as hoarse as crows owing to crying out against the monstrous Contribucion Directa put on them. This is a very old story indeed, and the whole republic is hoarse about it.

Good news for Thespians. The Municipality will expropriate the Colon Theatre next month and then spend 50,000 pats on it and make it the grandest theatre in South America. Bravo!

The Governor's Message about the new Capital was sent to the Legislature on Monday and the Senate had a look over it yesterday. So truly tremendously long is this superhuman Message that it will take 8½ hours and half a dozen Secretaries to read it to the House, a Constitutional formality that must be gone through; and many Deputies intend to take their nightcaps in their pocket and snooze it out, a sensible proceeding that will not affect the public interests, as the Message will be printed and distributed. This phenomenal Message beats anything as yet attempted in any quarter of the parliamentary globe.

Ex-President Vidal of Banda Oriental will come up shortly to have a peep at the Exhibition and will then start for a tour in Europe.

Dr Dn. Hector Alvarez, the new Argentine Minister in Paraguay, will leave for Asuncion in a few days We wish him a pleasant diplomatic sojourn in the land of yerba and oranges.

Several Montevidean ladies arrived yesterday morning, to arrange the needlework and other feminine articles in the Uruguayan section, which is one of the best in the whole exhibition.

The horse on which Barrientos, the bandit, rode 200 leagues across the camp in four days, to escape the police, is now on view at Mr M. Torres's 184 Calle Alsina. Black Bess herself could hardly beat this horse's feat of wonderful endurance and speed: it is a nice looking animal.

The rumour that the Emperor of Brazil intends to pay a flying visit to our Exhibition before he goes to Europe was current yesterday. We hope it may prove true. His Majesty would meet with a most enthusiastic reception here.

The eminent Anglo-Argentine composer Professor Hargreaves, has won the prize offered for the best song by our musical colleague the *Mundo Artistico*; he had 13 competitors, all eminent in their profession.

We were on the point of forgetting to remind the public that this is a day on which every man is expected to do his duty, and the Exhibition Committees will take as having done said duty every man who sets a flagflying from his house-top on this great occasion. It does not cost much, so we call on all *Standard* readers to hang up their banners on their outer walls.

Half a dozen more artists will embark next month at Genoa, to reinforce the Ferrari opera company here.

A man cut his child's throat at Ramallo the other day. When arrested he confessed the terrible deed, but said that family troubles had forced him to it.

The grand financial projects of the new Montevidean Government were out yesterday. One side of them is sound, the other is n't. Reduction of expenditure will do its work; an increase of Custom House duties will not, but is almost certain to reduce the revenue; yet this fact cannot be pounded into the heads of R. Plate financiers (Dr. Plaza always excepted) by any amount of hard experience.

Very high wages are now going in Santiago del Estero. Carpenters earn 3 to 5 Bolivian dollars per day, bricklayers 2 to 4, and so on for blacksmiths and nearly all other trades. This is a hint for those out of work.

The cost of expropriating the Riachuelo Port Works will be nearly 58 millions of paper money. Better pay it up at once and be done with it.

They had a shower of ashes in Mendoza on the 4th inst. Some volcanoes at play in the Andes.

The Exhibition opens to-day, and no 'aguas corrientes' as yet laid on in the building. In case of a fire it will have to be put out with Biekhert's beer, as there is no other available liquid on the premises.

We rejoice to see that our native colleagues now give prominence to news from Iceland, The *Prensa* of yesterday had a lot of interesting news from Dublin, Cork, Limerick and Athlone.

Phew! The *Nacional* gives a list of the visitors at seven of the principal hotels in town—the Frascati, Paz, Argentino, San Martin, Universelle, Globo and Paris—and the result is 408 in all. This does not look very like what our French friends call a 'grand plein'.

All the National and Provincial Government buildings and Plaza Victoria will be illuminated to-night.

A full description of the Exhibition appears in the *Diario* this morning. The Catalogue will not be ready for some time yet, so our colleague's issue of to-day will be rather valuable.

Bravo! The Municipality of Canuelas is going to cut up a square league into farm lots of 32 squares each for immigrants. Now estancieros, follow suit, if you want to quadruple the value of your old sheep lands!

ALL RIGHT!

To the Editor of the *Standard*.

Sir,

In refercnce to a letter that appeared in your issue of the 11th inst., I beg to state that my advertisement refers to the merits of machines, not to the 'braying of asses.'

Permit me to inform Mr. Forrester's 'Nightingale' that the challenge holds good until my machines are beaten.

I shall be prepared to test them with him next harvest.

I am, Sir,
Yours truly,
Thomas Graystone,

The market opened this morning very dull in view of the holiday to-morrow. The programme of the Exhibition was in every broker's pocket, and the republican members of the body protested energetically against the Louis XIV style of inaugurating the exhibition. The principal objection was raised against shutting the doors of the building at 3 p.m. immediately after the appearance of the President. The measure in fact does not speak much in favor of the discriminating powers of both committees. The doors of the exhibition should be kept open all the time. The Exhibition, the new Treasury Bills and the new Municipal project put a stop to much business, and it appears that the Corporation is to take out $200,000 in Cedulas, in order to expropriate the Colon; this takes place, or rather is on the 'tapis', whilst the Municipal bondholders weep over their unpaid coupons. If the Municipality intends taking out Cedulas, let it borrow a sufficient amount with guarantee of Municipal buildings, to pay the obligations due on its debt. These coupons only demand 3,000,000 m/c, a mere flea-bite when we consider the immense resources at the disposal of the Corporation. Bondholders view the expropriation measure with keen attention, and hope that Lord Mayor Alvear, with his usual energy, will take up the matter and pay the coupons.

Heaps of gold were offered on Change today at 25.01, but no market to take up all that is offered. At the ring not a single sale was made, but outside operations are carried on privately, and several holders of specie are letting it go at long dates, after securing premiums of 10 and 15 cents above par. Gold is very cheap, indeed, whilst paper money is tightening more every day. The private banks we hear have heavy reserves of paper deposited in the Provincial Bank, but are anything but liberal to applications for discounts.

Cedulas were active enough this morning, in comparison to the general stagnation in all other stocks. No operations were effected in Series A. Some Series B sold at 99. In Series E a more active speculation set in for end of month and end of April. The market was weak, but became firmer before the close of official hours. The interest in the stock is maintained, and there are endeavors to drive up prices this week.

National Bank Shares enjoy equivocal appreciations in the market. The situation of the stock is very uncertain, but in general it seems pretty certain that the Italians are endeavouring to create a market, and up to the present they have only succeeded in keeping up prices somewhat. In the market at the present moment there are very few outsiders; here and there one notices some operators of standing selling off at current prices. The well-known speculators sell out, to buy in again. Some moments afterwards nobody in the market can cast the horoscope of the stock with certainty for the end of the month, owing to the very uncertain movements of the Italians themselves. Business in the stock this morning was slow, and Series E claimed the attention of the brokers.

Everybody was talking of the land sales in Santa Fe, and it is generally thought that the sister province is going ahead more rapidly than Buenos Aires. As regards the land business, there is no market at present in Buenos Aires, whilst in Santa Fe, camps near the colonies and like those of Las Mercedes are daily improving in value. The great stamina of Santa Fé consists in the continual flow of emigration to the wheat-fields, and herein the plough beats the puesto hollow. A league of land under wheat, or the same area covered with sheep, cannot be compared. Emigration to Santa Fe has been so large that one may gallop for leagues in many parts through Italian villages where not a word of any other language but Italian is spoken.

To-night the Continental Exhibition will be lit up; 12,000 gas lamps will cast their glare over the precincts. The large gas-meter was put up yesterday; it is the largest in South America and weighs 6 tons.

Some Montevidean exchange was done to-day at ⅛ o|o premium.

10,000 Hard Dollar Bonds of 1863 were sold this morning at 87 o|o; this shows a drop of 1 o|o on last quotations.

Primitive Gas Shares were offered to-day on 'Change at $1,800 m|c.

Government Provesduria Bills are very scarce in the market; there are takers at 9 o|o.

The auction of Mr Downe's furniture in Calle Suipacha to day was a great success The furniture is some of the finest in the River Plate; the dining room set sold for 18,000 m|c. We congratulate Mr Eastman, the auctioneer, on the success of the auction.

Discounts in the market are difficult at 8 o|o for paper, slightly easier in gold at 9 o|o. The Banks are unwilling to discount in paper.

Many anticipated some electric lighting at the Exhibition to-morrow night, but the electric light is completely in the dark, owing to the fact that the appendages of the machines are either deficient or wanting. It seems incredible that in the Athens of South America no suitable cables can be manufactured for the electric light of the Admiral Brown; it is a deficiency that will be remarked in the illumination of the building and especially of the gardens.

The sales at the ring were as follows:—
Gold—
Without operation.
Cedulas—
For cash B 1,2oo at 99
For cash E 38,000 at 84¼-⅛-⅜
For March 31st E 143,4oo 84⅜-½-¼-85-84¼
For April 30th E 60,000 84¼-34
Sales, 241,200.
Nat. Bank Shares—
For cash 20 shares 123½
For March 31st 1,750 shares 124¼-124-125⅝ to 125¼-½
For April 30th 100 shares 124
Sales, 1,870.

The Villarino arrived to-day from Patagones at 2 p.m., the transport anchored in the Riachuelo.

The arrivals at the Plaza Once this morning were small, owing to the heavy rain yesterday. But some important operations were effected in deposit; 15,000 ar. of wool from Mr Unsue's deposit were sold to-day. The market is empty now, and owing to the very limited arrivals all the wool business is in the deposits.

6,000 Cedulas Series A were sold at afterhours at 100½; 60,000 pats were offered by one party at this price for the end of the month.

To-day a petition to the Camara Sindical was signed, requesting the Chamber to allow quotations of the Deuda Amortizable on the Bolsa. Several people raised objections, but the petition will be presented.

Several visitors for the Exhibition have arrived in the Hohenzollern. She will be up in the morning and will leave for Bremen direct with a full passenger list and 2,600 bales at 26s. and 10 per cent.

We remind our readers only those who have been invited can enter the Exhibition tomorrow between 1½ and 3 p.m. This is anything but a democratical measure; it is the result of high life.

In exchange there is nothing doing. Nothing could illustrate the dullness of the market in a more eloquent manner than the fact of a leading exchange broker, having walked off his boots going from house to house, made $32 m|c in commission and divided profits with his partner. This is historical.

To-morrow Bolsa and Banks will be closed, it being a strict holiday.

Mr W. White is a note to the Minister of the Interior calculates the value of railway material sent up to the present at $773,000. This shews that the Nat. commissioner in Europe, Mr Paz, has not been idle. Rosario itself is a large deposit of rails, sleepers and locomotives.

At afterhours very little business was transacted. A slight speculation was attempted in Series E, and some 40,000 were sold at 84⅛, the market closing firm at that rate. In Nat. Bank shares some 600 were sold at 123½ and ½: the bears spread some rumours of a failure in connection with the Bank which had but little effect on the market: the failure in question in Santa Fe was announced sixs days ago and is of little importance. The stock closed at 123½, firm. Business in general was at a stand-still all during afternoons; all were talking of the Exhibition, and we remarked some members who had evidently already been preparing for the inauguration, as they had white ties on. There is an intense disgust owing to the prohibition of entry during the official ceremony.

The Governor's message on the capital went to the Senate this afternoon; the capital of the future is to be Tolosa. It remains now to be seen how long the discussion will last and if the Deputies are satisfied with the selection.

Mr P Wright, the well-known auctioneer, has sold the property Calle Maipu 324, for $126,500 m|c. Buyer Mr Emilio Martinez.

The Captain of the Port is now placing in all the dangerous spots of the river buoys with bells appended to them, to warn captains. The measure is a good one and meets with general approval.

The hotel-keepers in town do not know where to put all their guests. M. Marechal has over 100 people in the Hotel de la Paix, and only 56 rooms; and the cry is 'still they come.' Several private residences have been rented during the week to families from the province, and there is a demand for furnished rooms.

To judge by all accounts the Oriental section of the exhibition will be the finest. The arrangements reveal the hand of an artist and the exhibits are all first class. There are some beautifully finished carvings, that have already attracted attention, and a French colleague pronounces them worthy of a Parisian museum.

4,400 salted potro hides
954 bales wool
and sundry packages.

The Chargeurs Reunis steamer Dom Pedro took:—
879 bales
1,000 salted potro hides
159 tons of lumber.

Two cargoes of jerked beef have been sold up the Uruguay; one for Brazil at 56 rls. gold, the other for Havannah at 60.

The Uruguayan pilot boat Uruguay is reported cleared for the Uruguay with 115 pipes of potro oil.

The following sales of real estate were registered yesterday in the National escribanias:
Calle Alsina No. 1,259, 8:66x22:949 mts., for 2,600 pats.
Calle Esmeralda Nos. 402 and 404, 10:50 by 48:57 mts., for 14,420 pats.

Some 50,000 arrobes of wool are reported sold in Barracas from the Deposits at reserved rates.

Advices from Brazil report very heavy rains in the neighborhood of Rio. Several landslips have taken place blocking up the roads and railways. Produce for the moment is scarce in Rio owing to the fact, and everything is at a stand-still.

The arrivals of wheat in the market continue to be very large; cereals not only come down from Santa Fe but from Entre Rios, Cordoba and even Mendoza; 1,000 bags of flour have arrived from the last named Province, and we may augur very brilliant trade prospects once railway communication is established to the Cordillera. The wines of the Cuyo Provinces promise splendidly this year and we may look forward to a superior Rioja Sauterne and Mendoza Burgundy. We advise our readers to taste the Rioja pot wine 200 m|c per dozen, there is no imported wine in the River Plate to compete with this Faenian.

The English lugger Farewell has left for Rio with 560 bales of hay.

The Italian barque Chiara Penco, with a cargo of linseed and maize for Havre, has been completely lost on the English bank in the river.

The new Zamora saladero on the Parana will be inaugurated next month. In the present state of the faena it will not have too much business on hand. The Saladeros are all working very slowly; some activity is expected in the graserias, but same will not take place before the end of the month.

The Sub-Secretary of the Interior, Mr Hector Alvarez, leaves next week for Paraguay, as Argentine Minister near the Paraguayan Government. As Sub-Secretary of the Interior Mr Alvarez was esteemed by all for his attention and amiability. We wish him an enjoyable trip to Asuncion. A countryman, Dr Reynal O'Connor, takes his post in the Ministry of the Interior.

The river Parana has been rising to an alarming extent, and inundations are feared at Santa Fe.

The Vigilante leaves next Saturday with Colonel Roca for the territory of Misiones. The National Government has made final arrangements for the new Misiones capital, henceforward to be San Martin, formerly called Corpus.

The well-known auctioneers Messrs P Mom & Co. sold the property Calle Cerrito No. 391 for 155,000 m|c. Buyer Dr Carlos Rossi.

Another invasion of Indians is reported in the North of Santa Fe. As there were no soldiers, the neighbors pursued the Indians and recaptured all the animals seized.

Epizootia is raging amongst the cattle of San Juan to an alarming extent. The Chilian Consul has taken steps to prevent their export to Chile.

The Bolivian dollar has now 15 o|o more value than the unfortunate Provincial paper dollar of Santa Fe. The fact leads to many complications in business, and people of Santa Fe complain of the large difference. All hold that the Santa Fe Provincial Bank will fuse into a sucursal of the Bank here.

The latest candidate for a sucursal of the Mortgage Bank is the Province of Santiago del Estero. Up to the present nothing whatever appears to be settled about the branches either inside or outside the Province of Buenos Aires. Before long we will see Misiones and Patagones also applying for branches of the Bank to mortgage Saltpetre beds and embryonic sugar fields.

The National Government has sent up a note to the Department of engineers, with a view to push the works of the Central Argentine Railway and of the wharf at Rosario. The note requests a statement of the condition of these works. The rails of the Central Argentine to the very bank of the river Parana means much for Rosario, and to think that here in Buenos Aires we cling to the cart and the "despacho directo" decree.

Venderemos al mejor precio, al contado y sin retirar lote las 30 hermosas yeguas a que nos referimos; respecto de las que solo decimos (haciendo su mejor elogio) que son propiedad del famoso Stud Las Barrancas del senor Don Patricio Reid, regenteado por el senor Don Diego Church.

Los animales que hoy ofrecemos debieron ser vendidos en el gran remate del Stud, no pudiendo hacerse asi por razon de la lluvia que desgraciadamente interrumpio la operacion

Al anunciarlos hoy, llamamos la atencion de los aficionados a buen sangre en animales de carrera; y muy especialmente a todos los Sres criadores que deseen poseer los mas lindos animales que existen en el Rio de la Plata.

Las yeguas son todas ellas preñadas y con cria al pie y han sido servidas por los famosos padrillos del Stud Sutherland y Young Fritz.

At 3 p. m.

At our mart San Martin 51, we will sell to the highest bidder (on above conditions) this splendid camp situated only 13 leagues from the town and surrounded with important establishments.

The camp which we offer for sale is only 5 leagues distant from the line of railway to Bahia Blanca, and is known and reputed to be covered with good class of pasture, the greatest part of it, tender grass; There are also several lakes of permanent sweet water on the land.

The conditions of sale are very advantageous with regards to payment, and for this reason we beg to call the attention of speculators in camp to this sale.

The buyer can take over 8 Bills due to Government, $186,680, i. e. $23,335 each.

The land laws allow the postponement of payment for one year on payment of 1 per cent per month interest.

AT OUR MART
51—San Martin—51

We will sell to the highest bidder over and above the stipulated basis, for cash, 8¾ league of splendid camp, in the department of San Justo, (Province of Cordoba). Advices we have received about the above camp are most flattering—so let those who wish to secure good land cheap, look alive.

The shape of the lot, its rich pastures, and the liberal conditions on which it is offered for sale (in one or more lots), place it within reach of agriculturists, who require small lots of excellent land.

The low valuation put on this land compared with the prices obtained by the Government, 3,060 pats, is the best recommendation we can offer.

'Bayard' y 'Municipal' de sangre puro fueron introducidos al pais por la compañia, comprados en el castillo 'Mille Secousse' cerca de Burdeos, *Presidente* tambien puro nacio en el establecimiento 'Matanzas' arriba mencionado.

Cremos inutil entrar en mayores detalles sobre la cria Percheron que es una de las razas mas convenientes para la cruza con yeguas del pais, pues son animales fuertes, elegantes, fogosos y al mismo tiempo de una docilidad que no se encuentra en ninguno otra.

Tenemos una prueba de ellos en las varias yuntas que se ven en las calles de la ciudad procedentes de la cria del Sr. Cambaceres, unico criador de la raza que ha especido hasta ahora sus productos al publico.

La Compañia del Tramway hasta la fecha habia unicamente espuestos sus crias en varias esposiciones, obteniendo siempre premios, pero sin ofrecerlas en venta; hoy que le hace, tiene los criadores una brillante ocasion para hacerse de animales de primer orden.

Los caballos y yeguas pueden verse en las caballerizas de la compañia en las 5 Esquinas y dos dias antes del remate en nuestra casa Alsina 78.

LONDON LETTER

(From our own Correspondent)

THE PARCELS POST AND THE RAILWAYS.

Feb. 9th, 1882

The difficulties of establishing so useful an institution as the 'parcels post,' long established in other countries, have been semi-officially stated in the *Times*. The subject is of much greater importance than at first sight it might appear. It involves the larger question of the State or private enterprise; and is opposed to the prejudices of Englishmen in general, as well as to certain principles dear to an older school of English political economy. In former times a jealousy of State interference was natural and wholesome, because the Government too often represented something apart from the people, and even antagonistic to their interests. Besides, the the mechanical conditions did not exist which would admit of an advantageous system of centralisation. At the present day the interests of the whole public are supposed to be, and in a great measure are, represented by the Government; which as simply an agency can be made to work effectively and more cheaply than heretofore when the greater extent and the amount of the work accomplished are considered. There is no sounder economist in his way than the present Postmaster General Mr Fawcett. He had probably in former days as pious a horror of State interference and mismanagement as Mr Herbert Spencer himself, but he has been driven by circumstances to abandon his strait-laced views on the subject. The whole gist of his present difficulty is that, with every anxiety to introduce a useful innovation, he finds that the great Railway Companies are too strong for him. They want as private and dividend-paying concerns to drive a hard bargain with the Government. As he cannot induce them to lower their terms, he forgets his and our old superstitions in regard to freedom of contract and the 'laissez faire' system, and evidently causes two columns of small print to appear in the *Times*, laying the history of the parcels post before the public, and threatening the Railway Companies with parliamentary action and compulsion. It is never to be forgotten that the railway system in England was from the beginning a national scandal, and a sorry instance of the licence of private enterprise. The action of the Government of fifty years ago was little more than further conducive to an acknowledged system of shameless plunder by lawyers, as well as by the very people who now complain of the plundering by landacts in Ireland—the landed gentry. The prices given for land, and the costs of early parliamentary railway bills, still press upon the public, in the shape either of low dividends or of high fares. Sundry commissions have been appointed in parliament to amend the defects of railway administration. Amongst other things a parcels post has often been proposed, but the railway companies have always managed to cause any recommendations of the kind to be of no effect. The consequence is that Great Britain is now shut out from the benefits of the International Parcels Post concluded at a convention made in November 1880, and to which nearly every civilised country but our own, with the exception of Holland and Persia, was a party. Throughout nearly the whole of Europe parcels not exceeding three kilogrammes, or about 6½ lbs weight can be transmitted at moderate charges; but the privilege is not extended to Englishmen. Because it stands in the way of the vested interests of common carriers, we are to be debarred from the convenience of what Mr Fawcett himself has called 'the greatest postal improvement since the introduction of the penny post.' You will hardly credit the fact, that in a matter so important to commerce as 'samples,' the facilities of sending them are so inadequate, that English merchants and manufacturers absolutely send such packages in bulk to Belgium and have them posted back again to England, the process being cheaper than sending the parcels direct by post from one part of this country to another. The postage is here about 1s. 4d. per pound, which amounts to a prohibitory rate.

In the *Times* article, (we must look upon it as nothing less than an official manifesto) there occurs the following passage of singular interest to the social economist. It says.' It cannot of course very well be urged, that we suffer from any lack of carriers or parcels companies, but it is probably the very fact of these being so numerous that gives rise to the disadvantages under which parcels are now transmitted; for, as Professor Tevons has significantly pointed out, they can only be supported by high and repeated charges.'

That is to say, that on the principle that large farms, or large trading concerns, are the cheapest, because they do most work with less cost and less distribution of labour, a properly organised Government made to work for its living and not consuming time in educating amateur statesmen in Imperialistic fancies, is for certain public agencies the cheapest and best of administrators. The essential characteristic of a parcel post is that the senders can count on delivery of parcels as if they were letters, without the uncertainty, trouble, worry and risk which attend the sending of a parcel through the instrumentality of several different and often competing private carriers and parcels delivery companies. It is calculated that with a Government parcel post there are city firms who would dispatch a ton of samples a day, whereas they now send only that quantity in a week. In fact it is unnecessary to enumerate to business men the many obvious advantages of the institution Mr Fawcett wants to introduce and finds himself opposed by those private interests which whether they are invested in land or in railways have by superstitions born of social traditions in this country been allowed to overrule the rights and wants of the general community. When those interests are attacked the classes affected accuse the Government or the people of 'plunder' or of 'menacing the rights of property' or of 'preaching communism.'

The railways of this country represent a capital of 730 millions, a total not far short, says the *Times*, of the National Debt, funded and unfunded. As an investment, they are considered equal to Consols in regard to security. This enormous property, held by all classes, has grown up in an ordinary lifetime. The different companies pay dividends varying from 5 to 8 per cent. Compared with gas and water companies the dividends are small, and the expenses, or the ratio of working expenses, is rather increasing than otherwise. This is due in a great measure to the natural love of competing with and fighting against the 'person opposite,' so characteristic of the men of business whose energy has created this colossal but expensive 'imperium in imperio' which the State itself scarcely ventures to offend or touch. But circumstances arise in which the monster will have to be attacked. For example, look at the Channel Tunnel! now proved to be an engineering possibility and capable of prompt accomplishment. Already the old enemies, the South-Eastern and the London and Chatham are fighting for the right of entry and for the terminus to be at Dover, to suit the L. and C., or at Folkestone, to suit the S.E. 'Depend upon it,' says the spirited chairman of the L. and C., 'wherever it is, the London and Chatham shall go through it.' Meantime the Duke of Cambridge and Sir Garnet Wolseley say the tunnel must not be made at all. We should lose the military advantage of our insular position, as the English terminus might be captured by a 'coup de main. That is rubbish. But, what it really means is this, that the time has come when the Government has a national excuse for putting its paw on the Colossus.

EDITOR'S TABLE

(Continued from third page)

There will be 2,000 pats worth of diamonds in the album about to be presented to Governor Iriondo of Santa Fe.

Mr Otto Bemberg, the young Argentine composer, is now engaged in Paris on a new work to be produced at the Opera Comique.

The National Hymn will be sung to-day at the opening of the Exhibition by all the artists of the Colon Theatre.

King Humbert was 38 years old yesterday, and all the National offices, Legations and Consulates flew their ensigns. We wish His Majesty many happy returns.

A fellow was fined $500 m/c at Quilmes some days ago for cutting off a long tress of a lady's hair 'for venganza'. It is rarely that man or woman with anything to their debit in the 'venganza' way gets off so cheaply in these regions.

Advices from Monte Caceros report an unprecedented hail-storm there last week, with stones of such size and weight that they smashed in the roofs like egg shells, and there is not enough glass left in the place to make goggles for a fly, Mr Casco, the Gefe Politico, is giving the banditti a hard time of it.

The Western, Southern, Central Argentine, East Argentine, Northern and Campana Railways have reduced their passenger fares 25 per cent during the Exhibition—up to May 1st. 'Muy bien' done.

The Minister of the Interior has issued a decree in reference to the distribution of lands to the Welsh Colonists at Chuput. It will be made on the principle that those in possession shall have the preference, and after them according to priority of arrival at the Colony. The Commissary, Mr John Thomas and Dn Gregorio Mallo have been named as a Committee to allot the lands.

A Venetian fete in gondolas is being organised by the very numerous members of our 'haut ton' now residing at San Fernando. There will be over forty gorgeously adorned and lighted gondolas in the aquatic procession, and the whole will wind up with a 'high tea' (and probably a 'hop') at Mr Calzetta's famous Calypso Island.

We warn our subscribers in the 'lechero' line to put a little more milk in the stuff they sell, at least for some time to come, as some of our colleagues are sounding the alarm, and the police may make one of their periodical raids on the tincans. We expect our diurnal milk to be delivered pure for at least three months, in return for this wholly disinterested warning to our Biscayan friends.

A carriage going at a highly fashionable speed tried conclusions with a Flores tram car on Sunday at the corner of Lima and Rivadavia, and, of course, got decidedly the worst of it. Fortunately, the occupants of the vehicle were not hurt. Private carriages are allowed to drive through the streets at far too high a speed, and the wonder is that more of them are not smashed.

Truly other things than history repeat themselves. But the other day, in the same column of the *Times*, was announced the birth of a son to William Shakspeare; and the death, somewhere in India, of Izaak Walton. And now, in the current number of *Fraser's Magazine*, who likes may read an article in praise of John Dryden, written by John Dennis.

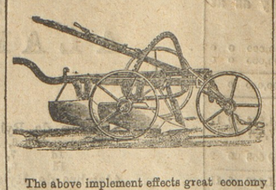
HOWARD'S CELEBRATED PLOUGHS

Howard's Double Plough.

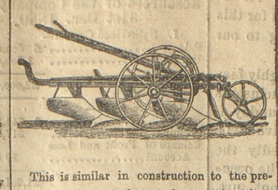


The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

With steel breasts.....
With steel breasts butwithout coulters
Weight 4½ cwt.

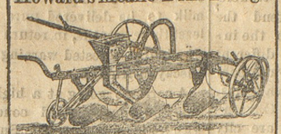
Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts.....
With steel breasts but without coulters.....
Weight 5½ cwt.

Howard's Mealie Drill Plough



The marked succes of J. & F. HOWARD's Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from "the necessity of things," whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f. 2000 ni el prestamo menos de $f. 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortisarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortisacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, E deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f. 50 que es el minimum de las que emite el Establecimiento.
